Subject: **Discussion: Policy and Permits for Extended Hours**

Introduction

The recent unfortunate incident at Martini bar, of which we have now suffered several in Cityplace, underscores the critical need for us to address these safety concerns and prioritize the well-being of our residents.

It is imperative that we convene to thoroughly evaluate and potentially amend our current code and policies concerning times of operation related to alcohol sales, particularly in relation to nightclubs and entertainment venues.

By implementing appropriate times of operation, we aim to enhance safety measures and cultivate a secure environment for all individuals within our city.

I appreciate your attention to this matter.
