3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. ForeverLawn® improves spaces and communities through innovative synthetic grass solutions. Beginning in 2004 as the daring entrepreneurial venture of two brothers, ForeverLawn has consistently led the synthetic turf industry through groundbreaking approaches to products and practice. As the premium choice for synthetic surfacing, each product is engineered to solve unique consumer needs and desires while maintaining superior standards and natural aesthetics. Today the company services over eighty localized markets through their dealer network, with an impressive regional, national, and international project portfolio.
11	What are your company's expectations in the event of an award?	In the event of an award, we will notify our network of 80+ exclusive dealers throughout the United States and Canada and provide education and support regarding the use of the Sourcewell purchasing contract. As one of the fastest-growing companies in the artificial turf industry, we currently perform a substantial amount of work in all of the qualifying sectors (government, education and nonprofit) and expect that by offering the Sourcewell purchasing contract, we will increase sales of athletic surfacing in these sectors. This will in turn lead to overall growth for our brand and increased visibility and opportunity across the United States and Canada for both Sourcewell and ForeverLawn.

12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	Co-founders Brian and Dale Karmie left the computer software industry in 2002 to chase an opportunity in the synthetic turf industry, moving from northeastern Ohio to Albuquerque, NM. Their desire to create truly unique and innovative products led to rapid and sustained growth, and ForeverLawn has consistently led the synthetic turf industry since their inception in 2004. ForeverLawn has posted an average of 26% annual growth for 10 consecutive years. ForeverLawn hit its highest growth rate in 2021, increasing 36% and estimating \$90 million in total retail sales. This growth has led to consistent hiring within our Home Office team as well as dealership expansion nationwide. Attached are our Balance Sheet and Profit and Loss Statements for 2021, along with reference letters from our partners and our primary bank. You will see from the documents attached that our finances are secure and in good standing. ForeverLawn, Inc. has grown tremendously recently, with a 60% annual sales increase in 2021. We look forward to partnering with Sourcewell to increase our volume even higher.	*

As a flourishing enterprise rooted in Christian business principles, ForeverLawn offers tremendous business opportunities dedicated to helping others find freedom and spread quality work throughout their communities. These guidelines have led ForeverLawn through immense growth, and the company now extends to over 80 regional, independently owned dealerships throughout North America in addition to an established Home Office in Louisville, Ohio. ForeverLawn operates exclusively through this dealer network, a framework which supports each dealership as an independent business and represents the highest quality individuals operating with exclusive rights to provide ForeverLawn products to their communities. Each dealer agrees to exclusively provide ForeverLawn synthetic grass products—making the success of ForeverLawn in each territory a priority instead of another option among many. The growth and success of the ForeverLawn dealer network can be attributed to the people of integrity throughout this network paired with the commitment ForeverLawn, Inc., makes to each of its dealers. ForeverLawn intentionally onboards dealers who embody exemplary character, and thus can confidently service their communities with excellence. While the new dealer process is selective, ForeverLawn in turn offers a variety of support unmatched in the industry. Dealers work side-by-side with experienced ForeverLawn installation experts to learn our unique, proven installation methods paired with unlimited access to the Home Office Installation Support Team. This provides dealers with expertise on all project types, regardless of their length of operation. Dealers and their team members also receive a variety of professional development resources, including 24/7 cloud-based access to ForeverLawn assets and in-person intensive trainings on business practices, sales, installation, and marketing. The ForeverLawn network also draws upon the knowledge of Brand Leaders, offering expertise for each specific brand/vertical market. ForeverLawn also provides requirements and incentives for dealer performance through an Annual Minimum Requirement (AMR) and Preferred Performance Level (PPL), which rewards dealers for exceptional performance in a calendar year. To assist in reaching these goals, the ForeverLawn Home Office offers support throughout the entirety of a project's process—including marketing, sales, business operations, installation, culture creation, and more. In addition, ForeverLawn employs a Home Office Sales Team (HOST), dedicated to assisting customers in locations currently outside of dealership territory. All HOST sales are done in collaboration with dealers, and ForeverLawn has committed to complete every HOST sale through a nearby dealership. This maintains a strong relationship between the Home Office and dealer network, while also better servicing customers by extending and strengthening ForeverLawn's overall reach. HOST members serve as the main point of contact for all National Accounts, agreements which extend nationwide and/or across multiple territories. One of our HOST members will serve as the main point of contact for Sourcewell, servicing relationships and opportunities presented through the platform. As an organization with international presence, ForeverLawn, Inc.'s overall strategy and efforts benefits all dealerships--just as a rising tide raises all ships. Beyond building brand awareness, these efforts include a variety of educational efforts, including architectural resources (such as Lunch-n-Learns, AEC Daily, Ron Blank & Associates) which are free and available to all customers, as well as relational efforts with playground representatives, park services, multi-facility owners, and more. Forever Lawn is also part of the Synthetic Turf Council (STC), with multiple members from the Home Office and our dealer network contributing to board leadership—showcasing ForeverLawn's commitment to giving back and improving spaces we enter, even as we benefit from participation in these places.

37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	ForeverLawn leverages technology in every facet of our business. From a marketing standpoint we continually invest in developing strategy that leverages customer data to inform our vast set of marketing tactics including: - Website creation and evolution, with ongoing (monthly) content updates to our family of domains, including: foreverlawn.com, sportsgrass.com, playgroundgrass.com, k9grass.com, foreverlawnlandscape.com, golfgreens.com. - Social media presence, with over 20 active Home Office accounts on Facebook, LinkedIn, Pinterest, Instagram, and Twitter. ForeverLawn Dealers are also active on a variety of social platforms to promote their brands locally. - Salesforce cloud-based software, used to help develop and manage customer relationships. - Project location software and hardware, allowing us to communicate project details, such as measurements, with as much precision as possible. This allows us to create visual depictions and provides us the data needed to develop CAD files.	*
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Sourcewell provides a symbiotic opportunity, where one party's growth ideally contributes to the other party's growth as well. As such, we hope that Sourcewell will continue and expand active promotion and communication of its leveraging opportunities for key prospects in the U.S. and Canada. ForeverLawn will leverage the Sourcewell relationship to add a purchasing solutions procurement module to all sales training classes, conduct educational webinars within our dealer network, post information on our internal blog, leverage the Sourcewell logo on our family of websites (along with relevant printed marketing/advertising), and promotions through social outlets and email marketing.	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	ForeverLawn does not offer an e-procurement system. All Forever Lawn product installations related to athletic projects require a ForeverLawn representative to review, validate, and/or recommend changes to reduce cost and maximize performance outcomes. This ensures quality standards are met throughout each step of the project, maximizing longevity of the installation.	*

40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	At ForeverLawn, we have a focus on providing premium solutions for our customers. By providing a wide range of artificial turf and complementary products, ongoing maintenance and support and our premium Closed Loop Warranty, we can give our customers the most high-value solutions available. Premium Turf Products - We offer 40 different artificial turf products and have products suited for any application. For athletic applications, we offer 12 different products and also have the ability to create custom products to meet any needs the customer may have. Complementary Items - In addition to our artificial turf products, we offer a wide range of complementary items as well. We offer everything from safety pads and turf infill to portable pitching mounds and specialty tools Ongoing Maintenance and Support - Our local dealer network allows us to provide excellent ongoing maintenance and support for our customers beyond the initial installation. In the case of athletic fields, we will provide comprehensive maintenance twice annually, to reduce/eliminate the maintenance required of our customers and to ensure our fields are performing their very best. We can also provide maintenance equipment and training for any customers who may want to do their own maintenance. Closed Loop Warranty - Our Closed Loop Warranty links the customer directly to our Home Office (corporate headquarters) as the manufacturer of the artificial turf system. This eliminates the need of the customer to keep track of a paper warranty and ensures that they will always have easy access to their warranty information. It also makes our warranties fully transferrable in the event of a change of ownership. ForeverLawn has been a pioneer in quality and innovation since our founding in 2004 and will continue to lead the market in finding ways to provide the absolute best solutions for our customers.
41	Describe any technological advances that your proposed products or services offer.	Whether it is handling ground balls, ensuring the best footing, or delivering greater impact safety, the ForeverLawn SportsGrass team will work with you to design and custom-produce a field that fits your exact needs. SportsGrass® products are manufactured in the U.S., designed and built to precise specifications that enhance quality of play. We work closely with customers to understand their goals and desires, and guide customers to a ForeverLawn product that meets their needs. In some cases, we may manufacture a new product to meet client/project needs. Our Technological Advances include: - Innovative Product-based systems: both testing data and real-world performance have shown that product-based systems provide better performance without sacrificing safety, which equals a better long-term value. SportsGrass has engineered and refined both product- and infill-based systems, providing opportunities for customers to determine the right fit for their project and benefit from the SportsGrass experience. - Antimicrobial action: sports fields come into contact sweat, spilled drinks, blood, and other bacterial spills. By adding antimicrobial properties to the turf, bacterial growth can be restricted without hindering the play of the game. As SportsGrass blades undergo natural wear, more antimicrobial action is released. - Antistatic Technology: synthetic turf surfaces can build up static, causing shocks and potentially interfering with cochlear implants or other electronic devices. SportsGrass is the only turf on the market with the option to build antistatic technology into the blades
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	ForeverLawn is a sustainable, eco-friendly solution for a variety of surfacing needs. ForeverLawn products are between 30-35% green by weight. Installed systems with rubber infill are between 60-65% green by weight. We also engage in a variety of eco-friendly initiatives, including: - Recycling: The multi-layered backing system in ForeverLawn® synthetic grass uses technology created from soybean plants, which are 100% renewable resources. The final backing layer is comprised of recycled plastic bottles from Project Yellowstone, an innovative recycling partnership with Yellowstone National Park. - Water conservation: Synthetic grass requires no water to maintain its beautiful appearance year-round. The Southern Nevada Water Authority estimates that every square foot of natural grass replaced saves 55 gallons of water per year. According to the Synthetic Turf Council, the estimated total amount of synthetic turf installed in North America annually conserves more than three billion gallons of water. - Chemical-free maintenance: Forever Lawn products eliminate the need for fertilizers, pesticides, and weed killers used to maintain natural grass. A perfectly-manicured field can be achieved with no mowing, seeding, or edging, which reduces emissions from lawn care equipment. - Environmental Stewardship- Synthetic grass helps steward a variety essential natural resource. ForeverLawn products require less water, eliminate pesticides and fertilizers, provide effective erosion control, and improve air quality by reducing emissions. - Recycling and synthetic turf: Where possible, ForeverLawn incorporates recycled and renewable components into the construction of our products. Additionally, ForeverLawn strives to look for innovative ways to repurpose used turf where possible.

43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	ForeverLawn has partners with the capability to recycle our synthetic turf to create other useful products. Components of the recycled synthetic turf can be used to install many products in the ForeverLawn portfolio.	*
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	Started by the sons of Syrian immigrant Fred Karmie, ForeverLawn values equal opportunity for all in the workplace. Currently, 8 independent ForeverLawn dealerships are veteran-owned or WMBE—an aspect ForeverLawn is proud of and looks to continue increasing in the near future.	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	ForeverLawn has a very unique structure within the athletic surfacing industry. While most companies in the industry utilize regional sales reps and traveling or subcontracted installation crews, we instead operate on a local dealer network. We have over 80 dealers throughout the United States and Canada and each of these dealers services their local market with in-house sales and installation teams. This local dealer model allows us to provide our customers with more dedicated attention throughout the sales process to ensure we are providing the best solution for their needs. After the sale, our installation is performed by trained, in-house, local crews who specialize in the installation of ForeverLawn products and have a vested interest in the quality of the installation. After installation is complete, we provide excellent ongoing support for our customers, including free semiannual maintenance on any athletic fields. It is our goal to provide the best solutions and support in the industry and we have become known for premium products, installation and customer support.	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	ForeverLawn offers superior product warranties covering all synthetic turf products manufactured by ForeverLawn, Inc., and tailored to each Vertical Market/product line. The ForeverLawn Closed Loop Warranty System (CLWS) is an advanced warranty tracking system recording vital information for each project including product type, installation date, and dye lot. Since the manufacturer's warranty is provided by ForeverLawn, Inc., and not the local dealer, the CLWS connects customers directly with the warranty provider in the event of a claim. The ForeverLawn Dealer Network offers, in conjunction with the ForeverLawn Closed Loop Warranty System, a minimum two-year warranty covering all aspects of synthetic grass installation performed by a ForeverLawn Dealer.	*

47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	ForeverLawn utilizes multiple platforms to inform customers of the proper ways to care for their synthetic grass purchases. Usage and maintenance guidelines can be found on all ForeverLawn websites, in the ForeverLawn Owner's Manual, and on ForeverLawn warranty documentation. ForeverLawn prides itself in offering the industry's best for product durability resiliency. Along with this, the ForeverLawn Owner's Manual outlines "Do's" and "Don'ts" for a customer's synthetic grass purchases. Usage cautions outlined in the manual include: • Do not expose the synthetic grass to direct high heat (fire, coals, hot equipment such as a lid from a grill or a weed whacker). ForeverLawn products are not flammable, and therefore do not pose a fire hazard; however exposure to high heat can curl or melt blades. • Don't mow or use power lawn care equipment on ForeverLawn. • Do not get paint on ForeverLawn products. • Avoid using harsh chemicals directly on ForeverLawn. While ForeverLawn warranties vary by product, they consistently do not cover the following: • Damage from misuse, abuse, or vandalism • Damage from external heat sources • Damage caused by vehicles or heavy equipment driving on the turf In all cases, ForeverLawn is available on a local and national level to help customers find best solutions should any issues arise with their finished project.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	ForeverLawn Inc. repairs or provide replacements for defective products or components at a cost to the purchaser/owner based on a proration chart specific to each product. This includes replacement product and re-installation labor of defective turf when installed by an exclusive ForeverLawn dealer. Example Proration Chart: (attached)	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	With over 85 regional Dealers throughout North America and a Home Office located in Ohio, ForeverLawn is never too far away to service customers. We are currently expanding our Dealership Network at a rate of 10+ new Dealers per year, with concentrated target areas in Canadian Provinces. If a warranty repair is needed in a Canadian Province that cannot be serviced by a ForeverLawn Dealership, the Home Office Team will work closely with a trusted professional landscape provider in close proximity to the project site to ensure a successful repair/installation. Map attached with our territories and location of dealers.	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	All ForeverLawn branded products within this proposal will be covered under ForeverLawn, Inc. manufacturer's warranties. ForeverLawn maintains a close relationship with vendors that provide important components in our proprietary installation systems, therefore the ForeverLawn manufacturer's warranty encompasses all products involved in the completed surfacing project. In the rare occasion that a ForeverLawn warranty claim is filed, ForeverLawn works with any non-ForeverLawn product vendors to ensure the warranty claim is fulfilled as outlined in the manufacturer's warranty documentation.	*
51	What are your proposed exchange and return programs and policies?	ForeverLawn always strives to put the customer first and ensure complete purchasing satisfaction for the nature of these customized orders. If a product is flawed upon delivery, the local ForeverLawn Dealer initiates a product claim, which allows ForeverLawn, Inc. to evaluate the condition of the synthetic grass and determine if the product needs replaced prior to installation. If the product is deemed flawed, a replacement product is reordered and shipped at no cost to the customer. Our goal is to provide the best customer experience possible. Product issues that arise after the synthetic grass has been installed are treated as warranty claims.	*

52	Describe any service contract options for the items included in your proposal.	ForeverLawn Dealers are independent local business owners who are in business for themselves, but not by themselves. The national support network that ForeverLawn provides ensures that our dealers are never alone when they or their customers have questions or concerns. The ForeverLawn team is committed to ensuring the satisfaction of our valued customers. ForeverLawn local dealers are focused on quality, innovation, and integrity. They prioritize and customer care and satisfaction. Local ForeverLawn dealers are, by design, close to the communities they serve to ensure many years of great service. Dealerships are encouraged to provide a maintenance or service plan that includes cleaning, grooming, brushing, or treating the synthetic grass surface.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	Upon shipment of any products, Each ForeverLawn dealer is responsible for invoicing their customer directly with the for agreed purchase price as listed on the attached pricing sheet. The invoice will include any applicable charges for freight shipping, taxes, accessories, and/or installation. Taxes are added in addition to the purchase price unless the customer presents a valid tax-exempt certificate. The invoice shall be paid by the customer within net thirty (30) days from the date of completion of the install. Our dealers accept many forms of payments including ACH, wire transfers, check or credit/debit cards. In addition, many dealers also offer residential and commercial financing options, creating greater access for ForeverLawn synthetic grass solutions	*
54	Describe any leasing or financing options available for use by educational or governmental entities.	From Walt Disney World to Google to ESPN, some of the country's largest companies partner with ForeverLawn for their projects. ForeverLawn offers commercial customers financing through North Star Leasing, expanding services and making ForeverLawn synthetic grass solutions more accessible to customers worldwide. North Star Leasing has been in business since 1979, bringing a uniquely personalized level of service to the industry. ForeverLawn has partnered with North Star Leasing for over 10 years, and is extremely confident in their ability to provide accessible financing with competitive rates for various applications, including educational and governmental entities.	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Once a dealer has been awarded a project through Sourcewell, the ForeverLawn team accepts the customer's PO including all required products and accessories listed individually. The dealer then places an order for any synthetic grass products, installation materials, and/or accessories on the ForeverLawn Company Store website. Each of our dealers has a personalized Company Store account to minimize risk for inaccuracy and miscommunications. The order is processed by our Order Processing Department, who issues a PO to the appropriate vendors for items to be shipped. After vendors have shipped the items on the order, the dealer is given tracking numbers, BOL's, and approximate times of delivery of the shipments. At this point, dealers are issued an invoice for shipped items with a net thirty (30) days to pay. After this invoice has been issued, our finance team will invoice our dealers for the 1.5% Sourcewell administration fee. We currently use HGA-C co-op on a regular basis, and quarterly we submit a report (using an excel spreadsheet) auditing each project and the progress. We have attached to this question a sample of an order that has been completed from start to finish, including PO from the customer, company store orders our dealer has placed, sales orders and invoices administered by our order processing team to the dealer, POs to the vendors for this order and tracking receipts for the items ordered from our vendors. In this example our dealer in Chicago had worked with HGA-C previously and sold over 9000 sf of our Playground Grass Academy.	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, our dealers accept P-card and there is no fee associated with using this process.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	The ForeverLawn pricing model will be a percentage discount off the published MSRP for each product. The discount will be standard across the product and installation line. Please see the attached document for all detailed information concerning products offered through Sourcewell.	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Our 10% discount off MSRP listed prices will remain consistent across all offered brands and product lines.	*
59	Describe any quantity or volume discounts or rebate programs that you offer.	ForeverLawn does not typically offer a standard quantity discount: we pride ourselves on offering the industry's highest quality products and strive to set pricing that is fair and accessible for our premium products. However, for sports field pricing, ForeverLawn is dedicated to working with customers to establish the most competitive pricing options we can provide.	*
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	ForeverLawn is committed to providing all necessary solutions for successful project performance and installation, which would extend to our Sourcewell contract. Most, if not all, of these products and services will be on the Sourcewell price list. Our goal is to provide one place customers can come and take advantage of premium product at a great price. If any products are added throughout the course of the contract, we will work to request an addition via the established Sourcewell processes and add them to our Sourcewell contract so we can continue providing unmatched service and solutions to all customers.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	ForeverLawn does its best to ensure no hidden fees or unexpected costs throughout the order and installation process. Some costs do vary by project, depending on surface removal and preparation. ForeverLawn will work with the customer to ensure that all ground preparations are done according to the needed specifications.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	While shipping costs will be billed to Sourcewell participating entities, ForeverLawn cannot accurately provide this information up front as these costs will vary by location and project size. The cost will be FOB and priced early in the process to give the customer all needed pricing information as soon as possible. All other charges will be listed on the contracts and prices submitted to our customers.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Customized shipping an option and will be evaluated on a case-by-case need.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Expedited shipping is available upon request with additional cost	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	We plan to enact our customized order process to ensure accuracy and contract compliance. This includes personalized Company Store accounts for every dealer, collaboration from multiple teams throughout the project's lifetime, providing tracking numbers with corresponding delivery estimates, and providing the Sourcewell pricing sheet as a resource on the ForeverLawn Dealer Portal.
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Once an order has been placed on our company store, our Order Process Team takes personal pride in populating each PO and following a predetermined system of checks and balances to ensure all ordered products are delivered to the customer in a timely manner. We also have a dedicated administrative professional who works specifically with cooperative purchasing contracts and runs quarterly reports in both our accounting system (QuickBooks) and the ForeverLawn Company Store. This follow-up ensures all orders are being processed and completed. This team member provides key insights into each order process, as they have past experience with our cooperative purchasing program and updating all involved. After the quarter ends, we will send the quarterly sales report and administration fee payment to Sourcewell for all items which are subject to the administrative fee.
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	With the best interest of both Sourcewell and ForeverLawn in mind, we propose a 1.5% administrative fee to be paid for all product sales included in the pricing sheet.

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	ForeverLawn offers unique products for specified solutions. Each vertical market offers products designed to fit customer-specific needs rather than forcing a "one size fits all" model to our solutions. With over 17 years of experience and over 50 million square feet installed, we strive to offer the right products for the right budget and need. All ForeverLawn products use the highest quality components and are made in the USA, providing a level of quality that separates it from the competition. While the quality of our solutions can easily be seen in the product, its true value is revealed over time by how well our products performs over the life of the installation. Our premium, three-layer backing creates dimensional stability, locking blades in place and reducing the need for infill. This backing also provides shock attenuation in The enhanced construction, durability, and safety of SportsGrass® by ForeverLawn® provides superior playing performance for years to come. SportsGrass products are produced using a unique, multi-colored grass fiber system for a solution that looks like natural grass and is constructed in a way that enhances natural grass feel and performance. SportsGrass products have a shorter blade height, higher face weight, and unique blade construction. This creates increased density along with a natural and a look and feel that mimics natural grass. Because we build stability into our products, our infill supports blades to improve performance, rather than being used as a stabilizer as seen in inferior products. The thatch component of SportsGrass products provides a realistic playing surface and a better system for locking the minimal infill used in place, resulting in less infill flying around and interfering with the players. We have highly trained, local teams to install every project who use specialized equipment and surveyor transits to ensure a precise, meticulous installation. Our professionals understand how to create the realistic finished field to offer desired performance.
70	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	SportsGrass offers both a product and infill-based solution. Both testing data and real-world performance have shown that product-based systems provide better performance without sacrificing safety, which equals a better long-term value. However, we understand that some situations may need an infill-based solution and provide a high-quality option for these customers to still benefit from the SportsGrass experience of precision installations and a partnership unlike any other. Additionally, we offer solutions for both indoor and outdoor play. By consulting with our synthetic turf experts, we can help provide the right solutions for your projects.

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments
71	Indoor and outdoor athletic and recreational artificial turf and running track surfaces and sub-surfaces	☒ Yes ☐ No	ForeverLawn has a large offering of artificial turf solutions for a wide range of athletic applications, ranging from full-size competition fields, multi-sport and community use, indoor competition and general training and fitness.
72	Equipment, options, accessories, technology, materials, and supplies complementary or incidental to the purchase of a turnkey or complete solution of the types described in Line 71 above	☒ Yes ☐ No	ForeverLawn offers the necessary accessories and options to provide turnkey solutions for our customers, such as a variety of infill selections and shock pads.
73	Services related to the offering of the solutions described in Lines 71 and 72 above, including installation, removal, disposal, refurbishment, inspection, repair, maintenance, training, and support	☒ Yes ☐ No	In addition to our artificial turf solutions, we provide ongoing maintenance, grooming and support (included biannually on all sports fields). We can also provide maintenance equipment, supplies and training for any customers who may wish to perform their own maintenance.

Table 15: Industry Specific Questions

Line Item	Question	Response *
74	Describe any unique advantage your product offers in relation to design, manufacturing, performance, maintenance, and product longevity.	Our athletic products feature a premium 3-layer backing that is 3-4x the weight of the common 2-layer backing systems in the industry. This provides a more stable, resilient backing, resulting in a more durable solution and lines and markings that stay straight for the life of the field, even in very high wear applications. Our products utilize a very dense blade structure with a premium nylon thatch, which increases durability, keeps the fibers standing upright and reduces infill requirements and flyout. We offer multiple fiber types to meet any requirements the customer may have, both slit film and monofilament as well as blended products and specialty fibers. Our thick, premium backing and dense blade structure with nylon thatch make our athletic surfacing solutions the lowest-infill options on the market. Our systems receive excellent GMax ratings in both lab testing and field testing and the reduced infill levels reduce infill flyout and leg fatigue (both common complaints among athletes who play on high-infilled artificial turf surfaces). When installing artificial turf fields, we use a construction transit to ensure all lines and markings are straight to within 1/8" variance, which significantly exceeds the industry standard. Our seams are a reinforced micro-mechanical system, which is the most secure and consistent seam type available. When applying infill, we use a metered drop and spreading machine called the SMG Sandmatic. This ensures that our infill levels are consistent across the entire surface to within 1/10". This surface consistency makes the surface more predictable and safer for athletes.
75	Describe any sustainability design features your product offers.	We participate in Project Yellowstone, which repurposes plastic bottles collected in national parks. The third layer of our premium backing is made from polypropylene made from bottles collected as part of this initiative at a rate of about one bottle per square foot. The second layer of our premium backing systems uses soy-based BioCel technology, as opposed to petroleum-based urethane, which is common in the industry. Our systems, when installed, are usually 50-80% recycled by weight, due to the recycled content in our preferred infill system. When replacing existing artificial turf, we make every effort to repurpose the surface, utilizing subcontractors when necessary. Our artificial turf is also completely recyclable.

76	Describe the installation process and how it is managed from product order to completion.	After the sale is finalized, we will perform the necessary invoicing, initiate orders for materials and schedule the project for installation. Our typical installation lead time is 2-8 weeks for non-field applications and 8-12 weeks for sports field applications. The installation process begins with base construction, including necessary grading, drainage and base stone installation. The base build should have multiple inspections and should always include a proof roll, to ensure suitable conditions. After the base build is complete, the shock pad installation will begin (if applicable). The pad should be installed in 16' widths just ahead of the turf installation. The turf should be installed immediately over the pad (if applicable). First, all rolls should be rolled out and positioned and any lines should be sighted in. Next, the seams should be set and any necessary cut ins (such as hash marks, logos, letters, etc.) should be cut and seamed. Once the necessary seaming and cutting is complete, the infill should be applied by the SMG Sandmatic and the edges should be secured to the nailer board with staples. After the installation is complete, the project lead will complete a final walkthrough with the customer or customer representative. Upon completion of the walkthrough, the customer will be provided with their warranty information, owner's packet and any necessary closeout items. The local ForeverLawn dealer and the ForeverLawn Home Office will remain very accessible to the customer for any questions or requests.

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.
6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
 1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;
 2. Included on the government-wide exclusions lists in the United States System for Award Management found at: <https://sam.gov/SAM/>; or
 3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☒ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal.
