GOVERNOR

June 29, 2026

Secretary Cord Byrd
Secretary of State
R.A. Gray Building
500 South Bronough Street
Tallahassee, Florida 32399

Dear Secretary Byrd:

Conservative fiscal policies produce real results. In keeping with the fiscal responsibility that I have championed for the Free State of Florida during the past eight years, I am proud to announce a *fourth consecutive year of a budget reduction*.

The Fiscal Year 2026-27 Budget represents the culmination of eight years of conservative leadership built on fiscal discipline, strategic investments, and a commitment to delivering results for Floridians. This budget demonstrates that Florida can continue investing in its priorities while maintaining *one of the nation's lowest per-capita state budgets*.

With today's vetoes totaling \$1.7 billion, including nearly \$810 million in line-item vetoes, our state reserves will be at a healthy \$17.8 billion, up from just \$11 billion in 2019. Florida still maintains its AAA credit rating, we have - once again - maxed out the Rainy Day Fund, and paid down over 50 percent of the state's historical debt.

During my tenure, the State has reduced more than 1,300 government positions while serving a population that has grown by more than 10 percent, reinforcing the fact that we can always do more with less.

Since 2019, now with the largest and most successful school choice program in the country, Florida has invested over \$30 billion into education, with historic per-student funding reaching \$9,338; we have invested \$7.1 billion into teacher salary increases; and most importantly, prioritized students' education over indoctrination.

The Florida Job Growth Grant Fund has supported more than 43,000 new jobs and 33,000 workforce education opportunities, while the Hometown Heroes Program has helped thousands of Floridians achieve homeownership. To keep pace with Florida's growing population, a strategic commitment of \$63 billion over the next five years is targeted towards congestion relief and infrastructure projects.

I have always maintained that Florida is a law-and-order state. Florida became the first state to offer recruitment bonuses for those in blue, and to-date, have successfully attracted more than 10,000 officers to keep our Florida communities safe. We have confiscated more than 600 pounds of fentanyl off our streets. The Florida State Guard was reestablished and has come to Floridians' rescue during several natural disasters. And Florida has supported the federal government in interdicting illegal immigrants, with more than 30,000 illegal immigrants processing through either Alligator Alcatraz or Deportation Depot.

We have also paired economic growth with unprecedented environmental stewardship. Since 2019, Florida has committed nearly \$9.5 billion to Everglades restoration and water quality improvements, tripling South Florida's water storage capacity, and helping Florida Bay reach salinity targets for the first time in decades.

Taken together, the Fiscal Year 2026-27 Budget reflects far more than a single year's spending plan – it represents eight years of delivering on conservative principles. These sound fiscal policies have allowed Florida to make historic investments without sacrificing financial stability.

I am proud to leave Florida better positioned than ever to meet future challenges while preserving the freedom and prosperity that have made the state the nation's model for effective conservative governance.

By the authority vested in me as Governor of the State of Florida, under the provisions of Article III, Section 8 of the Constitution of Florida, I do hereby withhold my approval of portions of House Bill 5001-E, enacted by the 29th Legislature convened under the Constitution of Florida of 1968 during Special Session E of 2026 and entitled:

An act making appropriations; providing moneys for the annual period beginning July 1, 2026, and ending June 30, 2027, and supplemental appropriations for the period ending June 30, 2026, to pay salaries, and other expenses, capital outlay - buildings, and other improvements, and for other specified purposes of the various agencies of state government; providing effective dates.

I do hereby withhold my approval of the following line items in the 2026-27 General Appropriations Act:

SECTION 3 - HUMAN SERVICES

Specific Appropriation 201
Pages 68 through 70

From the funds in Specific Appropriation 201, \$100,000 in nonrecurring funds from the Administrative Trust Fund is provided to implement a pilot program for candidate assessment technology that evaluates applicants through conversational interviews to reduce time-to-hire for critical state positions. The technology shall:

- (a) Conduct adaptive conversational interviews with job applicants using dynamically generated follow-up questions based on candidate responses, assessing competencies, soft skills, and problem-solving abilities beyond resume matching, skills extraction, or scripted decision-tree questioning;
- (b) Provide 24/7 automated screening available to candidates via text-based or web-based platforms with average completion time of 20 minutes or less per candidate assessment;
- (c) Generate candidate assessment reports including per-response scoring in standardized 100-point rubrics, soft skills evaluation, AI-generated response detection, and comparative rankings, replacing first-round interviews and manual resume review; and
- (d) Integrate with the existing People First/SAP SuccessFactors system via standard application programming interface without requiring custom SAP development, middleware, or additional SAP module licenses beyond the base People First system.

The Agency for Health Care Administration shall provide a report on the results of the pilot program the Speaker of the House of Representatives, the President of the Senate, and the Executive Office of the Governor by March 1, 2027.

Specific Appropriation 203
Pages 70 and 71

From the funds in Specific Appropriation 203, \$500,000 in nonrecurring funds from the Medical Care Trust Fund is provided to the Agency for Health Care Administration for independent third-party services to conduct an objective review and validation of the Project Closeout and Disposition Report of the Florida Health Care Connections (FX) Project and all supporting project records, including to: 1) review the Project Closeout and Disposition Report and related inventories, documentation repositories, financial records, technical artifacts, contracts, and operational materials; 2) verify that project assets, deliverables, obligations, risks, dependencies, security considerations, and unresolved issues are adequately identified and documented; 3) assess whether the documentation and preserved records are sufficient to support operational continuity, audits, procurement review, litigation hold requirements, cybersecurity review, and any future project restart or transition activities; 4) evaluate the program's operational, contractual, financial, and technical status, including remaining liabilities, transition requirements, and critical decision points; and, 5) deliver a final, detailed report validating whether the Project Closeout and Disposition Report and supporting inventories and documentation fully and accurately capture the project's status, assets, obligations, and risks in a manner sufficient to support informed future decision-making.

The Agency for Health Care Administration shall enter into an interagency agreement with the Office of the Chief Inspector General within the Executive Office of the Governor, pursuant to which the Office of the Chief Inspector general shall be responsible for the competitive procurement, contract execution and contract management, and for the reimbursement of costs for the contract with an independent third-party entity possessing the demonstrated expertise in large-scale public sector information technology project closure and transition management necessary to perform the review.

From the funds in Specific Appropriations 439, \$250,000 in nonrecurring funds from the Administrative Trust Fund is provided to implement a pilot program for candidate assessment technology that evaluates applicants through conversational interviews to reduce time-to-hire for critical state positions. The technology shall:

(a) Conduct adaptive conversational interviews with job applicants using dynamically generated follow-up questions based on candidate responses, assessing competencies, soft skills, and problem-solving abilities beyond resume matching, skills extraction, or scripted decision-tree questioning;

(b) Provide 24/7 automated screening available to candidates via text-based or web-based platforms with average completion time of 20 minutes or less per candidate assessment;

(c) Generate candidate assessment reports including per-response scoring on standardized 100-point rubrics, soft skills evaluation, AI-generated response detection, and comparative rankings, replacing first-round interviews and manual resume review;

(d) Integrate with the existing People First/SAP SuccessFactors system via standard application programming interface without requiring custom SAP development, middleware, or additional SAP module licenses beyond the base People First system.

The Department of Health shall provide a report on the results of the pilot program the Speaker of the House of Representatives, the President of the Senate, and the Executive Office of the Governor by March 1, 2027

IMPROVEMENTS
FROM GENERAL REVENUE FUND 50,000,000

The recurring funds in Specific Appropriation 705A are provided to begin the planning and design of one new 600 bed correctional hospital unit. The funds shall be used to identify and purchase land capable of co-locating the new correctional hospital unit and any prospective major correctional institution construction. The department shall provide preference to the use or purchase of existing state or locally owned land prior to the consideration of privately owned land for site acquisition. The site must be located where the labor market, potential labor pool, and other factors such as commute distance and cost of

living are favorable to provide a sufficient workforce for staffing the facility. Upon site acquisition, the funds shall be used for site planning and preparation, professional architectural and engineering design services, and construction of the new correctional hospital facility.

Upon recommendations from the financing oversight committee relating to the most cost-beneficial and effective financing methods for construction of the new facility, the department may submit a budget amendment in accordance with the provisions of chapter 216, Florida Statutes, to request the allocation of funds from the lump sum appropriation category. Funds may not be released for any other purpose and may only be disbursed for the purpose of making cash payments, payment of debt service or funding debt service reserve funds, rebate obligations, or other amounts payable with respect to bonds issued to construct the facilities. The funds are contingent upon HB 5403E, or substantially similar legislation, becoming a law.

The recurring funds appropriated in Specific Appropriations 715 and 717 are provided to address Americans with Disabilities Act compliance and environmental deficiency repairs at state-operated correctional institutions. The department shall develop an annual plan for the use of these funds. At a minimum, the plan shall detail all new fixed capital outlay projects to be requested by the department for the fiscal year, ranked by priority order of completion, location, and estimated cost of completion. The plan must also provide an update on all on-going projects previously funded by the Legislature. The department shall submit the plan annually by August 1 of each fiscal year to the President of the Senate, the Speaker of the House of Representatives, and the Executive Office of the Governor's Office of Policy and Budget. The funds are contingent upon HB 5403E, or substantially similar legislation, becoming a law.

From the funds in Specific Appropriation 2725, \$500,000 in nonrecurring funds from the Operating Trust Fund is provided to the Office of the Chief Inspector General to competitively procure, execute and manage a contract with an independent, third-party entity with demonstrated expertise in large-scale public sector information technology project closure and transition management to conduct an objective review and validation of the Project Closeout and Disposition Report of the Florida

Health Care Connections (FX) Project prepared by the Agency for Health Care Administration and all supporting project records, including to: 1) review the Project Closeout and Disposition Report and related inventories, documentation repositories, financial records, technical artifacts, contracts, and operational materials; 2) verify that project assets, deliverables, obligations, risks, dependencies, security considerations, and unresolved issues are adequately identified and documented; 3) assess whether the documentation and preserved records are sufficient to support operational continuity, audits, procurement review, litigation hold requirements, cybersecurity review, and any future project restart or transition activities; 4) evaluate the program's operational, contractual, financial, and technical status, including remaining liabilities, transition requirements, and critical decision points; and, 5) deliver a final, detailed report validating whether the Project Closeout and Disposition Report and supporting inventories and documentation fully and accurately capture the project's status, history, assets, obligations, risks, and unresolved issues in a manner sufficient to support informed future decision-making. The independent third-party entity may not have a current or prior contractual relationship with the Agency for Health Care Administration related to the FX project.

The Office of the Chief Inspector General shall enter into an interagency agreement with the Agency for Health Care Administration for the reimbursement of costs associated with such contract. The interagency agreement shall require that all work products, data, and deliverables be developed for the direct benefit and use of the Agency for Health Care Administration in administering the Florida Medicaid Program. The Office of the Chief Inspector General and any contracted vendor shall provide documentation, time records, and cost information to the Agency for Health Care Administration in a manner sufficient to support federal claiming and audit requirements.

The contract with the independent third-party entity shall require that all deliverables be simultaneously provided to the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, the chair of the House of Representatives Budget Committee, the Agency for Health Care Administration, and the Office of the Chief Inspector General. The independent third-party entity shall provide the final, detailed report no later than December 31, 2026.
