Words that describes our feeling
 The City's popular moniker is "Doral Shines." This title is the main protagonist of the art. The objective is not only to attract attention from far away to take photos. Also, this motto should be made stronger among residents and visitors.

What defines us
 One of our main mottos is "work, learn and play" which describes Doral as premier City that provides a superior quality of life to its residents.

We guarantee and defend our freedom
 The United States Southern Command is also based in Doral

Everything in one City
 These icons reflect why Doral is the ideal place to live, grow your business, have fun, and go out to dinner. Also, go to healthcare centers. Everything you need all in one place

Home of future leaders
 over ten colleges... technical schools, 10 artistic expression schools, multiple public, charter, and private schools all having a grade "A" status, make Doral one of the best Cities in America that provides a positive learning environment for all students to achieve their maximum potential as future leaders in society.

Unity, love and Peace
 The City of Doral is a unique community where people of all ages and cultures come together and enjoy so many of the things that make life beautiful.

Family comes first
 With its grade "A" schools, World-class Parks and multiple places for children's activities, Doral is the ideal city to live with the family.

Pet-friendly City
 Doral has one of the most important shelters in Miami-Dade County. The city provides an exceptional adoption Center where you can view pets available for adoption and meet them in a comfortable environment.

A young (and safe)City

Doral, incorporated on January 28, 2003, in one of thirty-four municipalities in Miami-Dade County, Florida. The Doral Police Department was started on June 2, 2008

How it started
 History. Origins. Roots
 Reflect the origins of Doral City, when Alfred Kaskel, real estate developer and his Wife Doris, opened a hotel and country club and named it **Doral** - a combination of Doris and Alfred. Also, Doral is well know for have the Doral Trump Golf Resort and Spa, home to the famous Blue Monster

The Street Art

Timeless Influencers

One of the fascinating sociological angles of this series of works by EDO has been to imagine and recreate what great personalities from universal history would have been like if they had access to the powerful technological tools enjoyed by current influencers. Thus, his series "Timeless Influencers" was born.

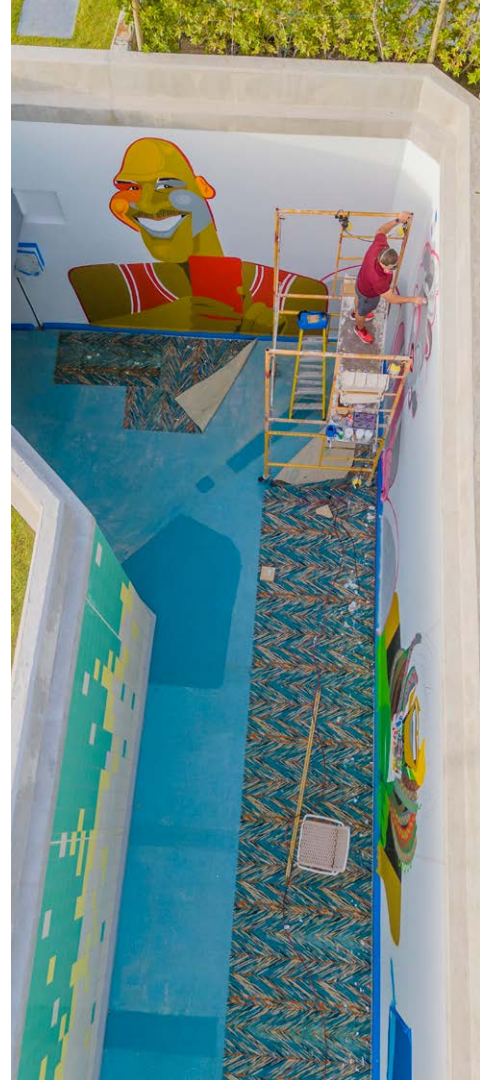

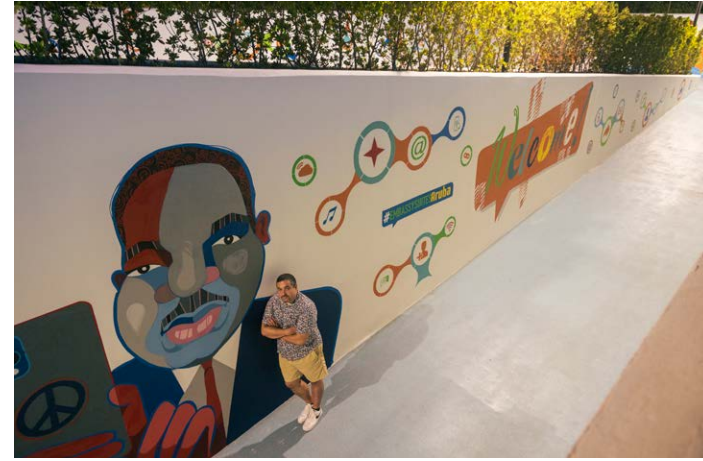

Based on this concept, he painted two murals: "Frida Influencer" (2022) and "Warhol Influencer" (2024), both at the Art Center Miami Gallery in Wynwood.
