OUR VALUES

LOVE REACHES BEYOND KNOWLEDGE

Dr. Carlos Albizu established the university in 1966 with a theory of education premised on his philosophy that “knowledge that is based solely on logic and reason may become dehumanizing and is not at the service of humanity. Education that is guided by love emphasizes social welfare more than it does individual competition.

Our programs are designed for students of all cultural and ethnic backgrounds and provide a rich exposure to culturally diverse populations through both academic training and applied experiences.
