Ms. Diana Ramos Bercow, Radell, Fernandez, Larkin and Tapanes 200 South Biscayne Boulevard Suite 300 Miami, FL 33131

Re: Midtown PUD Modifications (Pattern Book & MDA) Phases IV, V, VI PZAD-2307-0272

Dear Ms. Ramos:

In response to your email dated January 2, 2024, regarding the question of waste disposal concurrency, the Department of Solid Waste Management (DSWM) can provide you with the following information:

The DSWM does not measure waste disposal capacity utilization on a case-by-case basis. Instead, the adequacy of County disposal capacity is evaluated system-wide, based on historical contracted and anticipated non-contracted waste flows. Accordingly, we are not able to make specific capacity commitments to facilities, developments, or areas.

Enclosed, please find the DSWM's FY 2023-24 concurrency determination, issued on September 28, 2023, which is filed with the Regulatory and Economic Resources Department on an annual basis. The determination shows sufficient system-wide waste disposal capacity to meet the County's adopted 5-year level-of-service standard.

Should you require additional information, please do not hesitate to contact Stacey McDuffie-Brewster, Division Chief, Intergovernmental and External Affairs Division, at 305-514-6040.

Sincerely,

Olga Espinosa-Anderson, Interim Director Department of Solid Waste Management

Enclosure

c: Stacey McDuffie-Brewster, Division Chief, Intergovernmental and External Affairs, DSWM

Date: September 28, 2023

To: Jerry Bell, AICP, Assistant Director for Planning

Department of Regulatory and Economic Resources

From: Olga Espinosa-Anderson, Interim Director

Department of Solid Waste Management

Subject: Solid Waste Disposal Concurrency Determination

The Department of Solid Waste Management (DSWM) determines compliance with the County's adopted level-of-service (LOS) standard for solid waste disposal based on the ability of the County Solid Waste Management System (System) to accommodate projected waste flows for concurrency. Only those System facilities that are constructed or subject to a binding executed contract for construction are included in this determination, in accordance with Chapter 33G of the Miami-Dade County Code, Service Concurrency Management Program.

The attached spreadsheet presents the projected utilization of the System's remaining disposal capacity over a period of twelve (12) years. The projection is based on the demand generated by those parties (municipalities and private haulers) who have committed their waste to the System through interlocal agreements or long-term contracts and anticipated non-committed waste flows, in accordance with the LOS standard. The analysis shows adequate System capacity to meet the LOS through Fiscal Year 2035 or seven (7) years beyond the minimum five (5) year standard. This determination is contingent upon the continued ability of the County and its disposal service contract providers to obtain and renew disposal facility operating permits from the applicable federal, state and local regulatory agencies. Therefore, please be advised that the current LOS is adequate to issue development orders. This determination shall remain in effect for a period of one (1) fiscal year (ending September 30, 2024), at which time a new determination will be issued. If, however, a significant event occurs that substantially alters the projection, the Department will issue an updated determination.
