Re: Letter of Intent for Future Land Use Map Amendment to Include Portions of Miami International Mall within the Proposed “Mall Mixed Use” Land Use Designation (the “Application”) / Greystar Development East, LLC / Property Generally Located at 1625 NW 107 Avenue and 1603 NW 107 Avenue

Dear Mr. Magrisso:

This Letter of Intent is submitted on behalf of Greystar Development East, LLC (the “**Applicant**”) in connection with its application for a public hearing and approval of a Future Land Use Plan Map (“**FLUM**”) amendment to redesignate approximately 25.612 acres of property located within Miami International Mall (the “**Mall**” or “**Miami International Mall**”) from the “Business” land use category to the proposed “Mall Mixed Use” land use designation, specifically on those parcels identified by Miami-Dade County Tax Folio Numbers 35-3032-008-0050, 35-3032-008-0140, and a portion of 35-3032-008-0010 (the “**Property**”). For reference, an aerial exhibit outlining the Property’s general boundaries in green is included below:

Request Overview. The proposed inclusion of the Property within the “Mall Mixed Use” (MMU) land use designation will enable the horizontal integration of high-quality multifamily residential communities within an established regional shopping center (the “**Project**”). This integration is consistent with the City’s Comprehensive Plan and reflects the City’s evolving land-use patterns toward more vibrant, sustainable, and mixed-use environments.

As of the date of this letter, the Applicant has also filed the following nine (9) concurrent application requests:

1. A Comprehensive Plan Text Amendment to create the “Mall Mixed Use” designation to permit residential development as applied to the proposed “Mall Mixed Use” zoning district.
2. A Land Development Code Amendment to create the “Mall Mixed Use” zoning district.
3. A Zoning Map Amendment to rezone the Property into the “Mall Mixed Use” zoning district.
4. Site Plan Approval application to allow the development a multifamily residential project on the west ± 7.327 acres (319,162 square feet) of that certain parcel of land located at 1625 NW 107 Avenue and identified by Miami-Dade County Tax Folio Number 30-3032-008-0050 (“**Residential Site No. 1**” or “**Site 1**”).
5. Site Plan Approval application to allow the development a multifamily residential project on the east ± 5.66 acres (246,788 square feet) of that certain parcel of land located at 1625 NW 107 Avenue and identified by Miami-Dade County Tax Folio Number 30-3032-008-0050 (“**Residential Site No. 2**” or “**Site 2**”).
6. A Modification to the Miami International Mall Consolidated Development of Regional Impact (“**Miami International Mall Consolidated DRI**”) Development Order to permit residential development within Miami International Mall.
7. The Administrative Release of a Declaration of Use recorded in Official Records Book 17735, Page 3022, which restricted the use of a portion of the Property to a limited automobile service center.
8. A Partial Release of the Declaration of Restrictions recorded in Official Records Book 10619, Page 1984 of the Public Records of Miami-Dade County, Florida.
9. A Modification of the Declaration of Restrictive Covenants recorded in Official Records Book 11212, Page 1613 of the Public Records of Miami-Dade County, Florida.

Project Background. The Property comprises portions of the Mall previously occupied by former big-box department stores and the adjacent surface parking areas. The Project represents a once-in-a-generation opportunity to reimagine underutilized retail space at Miami International Mall

as a vibrant, design-forward residential community — one that breathes new life into a beloved South Florida landmark while delivering the kind of activated, mixed-use destination that modern urban communities demand. Greystar, one of the world’s leading multifamily developers, brings to this Project a proven track record of transformative residential development and a genuine commitment to quality, sustainability, and community integration.

Miami International Mall has served as a cornerstone of the Doral community for decades. Yet like many regional malls across the country, it now faces the structural shifts that have transformed brick-and-mortar retail. Rather than resist these forces, the Applicant embraces them — proposing a forward-looking, mixed-use redevelopment that honors the mall’s legacy while securing its long-term relevance and vitality.

The Project’s overall introduction of a maximum of 896 new residences at a location with unmatched connectivity and access to employment, retail, dining, and entertainment — all within the City of Doral, one of South Florida’s most desirable and fastest-growing communities. The Project delivers the kind of high-quality, professionally managed rental housing that Doral residents and workers are actively seeking, helping to address a regional need while generating meaningful economic activity, employment, and tax base for the City.

Analysis of Review Requirements. Pursuant to Section 53-213(c) of the City of Doral Code of Ordinances, amendments to the FLUM shall be evaluated based on consistency with the Comprehensive Plan, consistency with the Land Development Code, and where applicable the factors traditionally applied to rezoning amendments. The proposed FLUM amendment satisfies each of these criteria, as outlined below:

(1) Consistency with the Comprehensive Plan

The proposed amendment to redesignate the Property from “Business” to “Mall Mixed Use” is fully consistent with the City’s Comprehensive Plan, as amended concurrently through the proposed Comprehensive Plan text amendment establishing the Mall Mixed Use land use designation.

The requested FLUM change directly implements newly adopted Comprehensive Plan policies intended to address the evolution and redevelopment of regionally significant shopping centers. The proposed Mall Mixed Use designation reflects current land use conditions at Miami International Mall, supports adaptive reuse of underutilized commercial property, and advances the Plan’s goals of promoting economic viability, efficient land use, and sustainable development patterns.

The amendment does not conflict with any other element of the Comprehensive Plan, including transportation, infrastructure, housing, or capital improvements. Instead, it enhances internal trip capture, maximizes existing infrastructure investments, and supports long-term reinvestment in an established urbanized area. As stated in the CDMP Traffic Analysis, prepared by

Vala Group, Inc, dated March 20, 2026, the maximum proposed development potential of the “Mall Mixed Use” designation will have massive reductions in trips to the Property when measured against the maximum development potential under the current “Business” land use designation resulting in the following trip reductions:

The change in the future land use designation will reduce the amount of traffic the site could potentially generate by 26,391 daily, 274 AM peak hour, and 1,412 PM peak hour trips. [underlined for emphasis]

As such, the proposal maintains internal consistency within the Comprehensive Plan and advances its adopted goals, objectives, and policies. Additionally, the Project furthers the following Comprehensive Plan policies:

***Policy 1.1.3:** Where appropriate, place higher densities in close proximity to transit stops. By January 2018, complete a study with recommended actions of land use and zoning densities near transit access points in Doral measuring them against a minimum transit viability density standard of 7 units per acre.*

The Project directly advances the City’s mobility and sustainability objectives by locating new residential density within walking distance of existing transit service. By introducing a meaningful number of residential units at this location, the Project helps support the City’s goal of achieving transit-supportive densities that meet or exceed the minimum viability threshold of 7 units per acre. This strategic infill pattern not only reduces reliance on single-occupancy vehicles but also strengthens ridership potential for future transit expansions envisioned in the Comprehensive Plan. The Project therefore aligns with Policy 1.1.3 by reinforcing Doral’s emerging multimodal urban fabric and placing households exactly where transit can serve them most efficiently.

***Policy 1.1.4:** Search for evolving opportunities in the Future Land Use Element (FLUE) and LDC for additional cluster residential development and energy-efficient, multi-story homes on smaller lots.*

The Project transforms an underutilized commercial property into a more sustainable and efficient land use consistent with the City’s long-term planning directives. By incorporating multi-story residential buildings with modern, energy-efficient systems, the Project demonstrates the type of forward-looking housing model envisioned by this policy. The site’s compact development structure allows for a more thoughtful use of land, enabling additional green space and reduced impervious surface. This redevelopment represents exactly the kind of opportunity the Comprehensive Plan encourages—leveraging infill sites to deliver high-quality, energy-efficient housing in a clustered, space-efficient configuration.

***Policy 1.4.4:** Look for opportunities to preserve and expand open green space in the City. Revisit current standards for open space, parking, and local roadway dimensions with an eye toward reducing impervious area. Incentives for multi-story, cluster housing and structured parking*

should also be explored. Also, consider reducing parking space requirements for private developments within ½ mile of a transit stop.

The Project addresses the City’s environmental and urban design objectives by replacing predominantly paved, low-yield commercial land with a thoughtfully planned residential development that integrates meaningful open green space. By utilizing multi-story residential forms and exploring reduced parking needs due to proximity to transit, the Project significantly decreases the site’s impervious footprint. This development approach directly supports Policy 1.4.4 by demonstrating how higher-density, vertical development can increase on-site green areas while promoting a more walkable, transit-supportive environment. The Project exemplifies the City’s vision of using redevelopment as a tool to restore green space and reduce heat-island effects.

Policy 2.1.13: *Discourage land use patterns indicative of urban sprawl in the Future Land Use Map and any amendment applications by dictating compact development, mixed-use where appropriate, and efficient use of public facility capacity and resources, while protecting single-family neighborhoods.*

By shifting an exclusively commercial parcel toward a mixed-use, compact residential pattern, the Project directly counters sprawl-related land consumption and advances the City’s goal of promoting more efficient use of existing urban areas. The site is already serviced by infrastructure and proximate to employment, schools, and transit routes. Introducing residential uses here aligns with Policy 2.1.13 by strengthening the City’s internal land use balance, reducing commute distances, and promoting infill rather than outward expansion. This redevelopment approach supports the City’s long-term strategy of cultivating walkable, mixed-use districts that optimize land resources and decrease development pressure on peripheral areas.

Policy 4.1.1: *Through the City’s adopted Future Land Use Map and land use designations, promote a mix of residential land use categories and densities throughout the City.*

The Project contributes directly to the City’s objective of diversifying residential opportunities by introducing a mixed-use land use category in an area currently restricted to commercial activity. This broadens the variety of housing types available to residents while enhancing the balance between residential and employment uses within the community. The Project’s proposed density and housing typology complement the surrounding urban context and advance the City’s intent to distribute residential uses more strategically across Doral’s urban landscape. In doing so, the Project supports a healthier, more sustainable mix of land uses citywide.

Policy 4.1.8: *Increase the City’s residential potential within designated areas such as the DMU and CMU land use categories to promote mixed use development.*

The Project reinforces the City’s mixed-use planning framework by increasing residential capacity within a designated mixed-use area (i.e., the proposed MMU). Consistent with Policy 4.1.8,

the application strengthens the vitality of the area by adding housing that will support nearby commercial, civic, and neighborhood-serving uses. By incorporating residential development into an area already conceptually structured for mixed use, the Project activates the district with a built-in resident base, creating a more complete, self-sustaining neighborhood ecosystem. This directly fulfills the Comprehensive Plan's goal of leveraging mixed-use districts to expand housing opportunities while enhancing walkability and reducing transportation impacts.

(2) Consistency with Applicable Sections of the Land Development Code

The proposed Future Land Use Plan Map amendment is consistent with the City's Land Development Code and is coordinated with concurrently submitted amendments that establish implementing regulations.

Specifically, the proposed "Mall Mixed Use" land use designation corresponds directly with the proposed "Mall Mixed Use" (MMU) zoning district and related Land Development Code provisions. Together, these amendments create a comprehensive and internally consistent regulatory framework governing the type, scale, and form of development anticipated on the Property.

Approval of the FLUM amendment will not result in uncontrolled development or circumvent existing City review authority. All future development will remain subject to zoning, site plan approval, and design review pursuant to the Land Development Code, ensuring continued compliance with City standards.

(3) Additional Considerations (Applied as Appropriate)

While FLUM amendments are not rezoning actions, consideration of the following factors further supports approval of the requested amendment.

a. Whether Justified by Changed or Changing Conditions

The proposed amendment is justified by changed and changing conditions affecting both the Property and the regional retail marketplace.

Miami International Mall, like many enclosed regional malls, is undergoing a transition driven by declining demand for traditional big-box retail and increased demand for experiential, mixed-use environments. Former department store spaces and surplus surface parking areas no longer serve their original function and present appropriate opportunities for adaptive reuse.

The Mall's reinvestment strategy, including the introduction of entertainment and lifestyle uses, reflects this shift. Incorporating a residential component through the Mall Mixed Use designation responds to these conditions by aligning land use policy with current market realities and long-term redevelopment trends.

b. Whether Adequate Sites Already Exist for the Proposed Uses

Although residential land uses exist elsewhere in the City, the Property offers a unique and appropriate site for residential development due to its size, infrastructure capacity, accessibility, and integration within a regional activity center.

The Property is fully urbanized, served by existing utilities and transportation facilities, and located within walking distance of employment, retail, dining, and entertainment opportunities. Introducing residential uses within this context promotes efficient land use, supports a live-work-play environment, and reduces pressure to accommodate housing demand on undeveloped land.

Accordingly, redesignation of the Property to Mall Mixed Use represents a strategic and efficient location for mixed-use residential development.

c. Whether Land Development Code Requirements Ensure Compatibility

Compatibility with surrounding properties will be ensured through a combination of existing site conditions and newly proposed regulatory controls.

The concurrently proposed Land Development Code amendments establish detailed development standards for the Mall Mixed Use zoning district, including controls on building height, setbacks, landscaping, open space, buffering, and parking. These standards are specifically crafted to address the scale and internal organization of mall-based mixed-use development.

Additionally, the Mall's internal circulation system, including its ring road configuration and expansive perimeter setbacks, provides substantial physical separation from adjoining properties. This layout ensures a level of buffering and compatibility that exceeds what is typically achievable on conventional infill sites.

Finally, the City retains full authority to review and approve future development through site plan and design review processes, ensuring continued compliance with Comprehensive Plan policies and Land Development Code standards.

Conclusion. The proposed FLUM amendment satisfies all applicable review criteria under Section 53-213(c) of the City's Code. The amendment is consistent with the Comprehensive Plan, coordinated with implementing Land Development Code provisions, justified by changed market conditions, and supported by adequate regulatory controls to ensure compatibility with surrounding land uses.

Based on the foregoing, we respectfully request your favorable review and recommendation. Thank you in advance for your considerate attention to this application. If you should have any questions or require any additional information, please do not hesitate to contact me at (305) 376-6008.

Respectfully submitted,

GUNSTER

D. Provide legal description or address of any property held by the owner which is contiguous to that which is the subject matter of this application.

E. DATE SUBJECT PROPERTY WAS ACQUIRED Please see Exhibit A

APPLICANT'S REQUEST:

Specify in full the request. (Use a separate sheet of paper if necessary.)

Future Land Use Map Amendment Application (CDMP Amendments) including the property within the proposed "Mall Mixed Use" Designation.

LETTER OF INTENT

Explain purpose of application, benefit(s) in the change and reasons why this application should be approved. Specify the exact nature of the use or operation applied for, together with any pertinent technical data, which will clarify the proposal. (Use a separate sheet of paper if necessary.)

Please see the letter of intent included as part of this application.

Is this application the result of a Notice of Violation or deviation from approved plans? Yes No

Are there any existing structures on the property? Yes No

If so, what type? (CBS, Frame, Frame-Stucco, Wood, Other) CBS

Any applications that involve an existing building must provide copy of the approved plans, plat, site plan approval or any prior zoning history. Plans that are not filed with this application will not be considered by the City of Doral.

All data and exhibits submitted in connection with this application become a PERMANENT PART OF THE PUBLIC RECORDS OF THE CITY OF DORAL.

The following enclosures where applicable MUST BE ATTACHED to complete the application:

- A. **SURVEY OF PROPERTY:** For vacant or improved property. Must be no more than one year old and sealed by a registered land surveyor. The Building and Planning Department may require a more recent survey if a site visit indicates any discrepancies. Survey must include, where applicable, lot lines, all structures, walls, fences, landscaping, and all physical improvements. All existing trees must be shown.
- B. **SITE DEVELOPMENT PLAN:** Where applicable, plans shall show location and elevations of existing and proposed buildings, proposed additions, alterations and use of each; all dimensions of buildings and space between buildings; setbacks from property lines; proposed and existing off-street parking showing lined spaces, driveways, handicap spaces, compact spaces; a landscape plan that complies with the City of Doral Landscape Ordinance showing location of existing and proposed vegetation, landscaping (i.e. trees and hedges), number, height and species type. The plan shall also show wall and fence height, location and material. Prior ASPR or Site Plan Approval Resolution and plans must be submitted.
- C. **LETTER OF INTENT:** A letter of intent must be filed explaining in detail the history of the property, prior approvals and the extent of the proposed project. Show how code criterion is met. Signature and address must be shown.
- D. **OTHER GOVERNMENTS/AGENCIES ENDORSEMENTS:** All applicable DERM, Miami-Dade Fire Department, or the Miami-Dade Water and Sewer Department's endorsement must be submitted.
- E. **OWNER'S AFFIDAVIT:** Owner's affidavit allowing the filing of an application is required on all applications where the applicant is not the owner of the property under consideration; same form allows posting of property.
- F. **TRAFFIC STUDY:** A detailed traffic analysis considering the impacts of the proposed development on current level-of-service (LOS) standards in abutting (or nearby) roads and intersections.

NOTE: SURVEYS, SITE DEVELOPMENT PLANS, LANDSCAPE PLANS MUST BE SUBMITTED AT STANDARD PLAN SIZE. AN APPLICATION WILL NOT BE CONSIDERED COMPLETE UNLESS 6 COPIES (AND A PDF) OF THE APPLICATION AND SUPPORTING DOCUMENTATION (FRONT AND BACK), APPROPRIATE PLAN DRAWINGS AND SURVEYS ARE SUBMITTED.

In support of this request, I submit the following additional items, which are attached hereto and made a part of this application:

- 35 MM Photo(s) (Mounted 8 1/2 x 11)
- Letters from Area Residents
- Other _____

Please check only one of the following options:

City Code Sec. 2-279, Charges for consulting services established.

(a)The city manager or his/her designee, in the review of any application, may refer any such application presented to it to such engineering, planning, legal, technical, or environmental consultant or professionals employed by the city as the manager shall deem reasonably necessary to enable him to review such application as required by law. Charges made by such consultant shall be in accord with the charges customarily made for such services in the county, and pursuant to an existing contractual agreement by and between the city and such consultant. Charges made by the city shall be in accord with the hourly rates charged by such consultants or hourly rates of employed professionals and shall be paid on submission of a city voucher.(b)The applicant shall reimburse the city for the cost of such consultant or employed professional services upon submission of a copy of the voucher, within 30 days of submission of a copy of the voucher and as a condition of the zoning resolution. These fees are in addition to any and all other fees required by other law, rule, or regulation of this Code. (Ordinance No. 04-07)

I, EWE RETAIL II LTD, a Florida limited partnership (Property Owner), hereby acknowledge and consent to the payment of all applicable fees as it relates to the application and request for the review and processing of the requested Administrative Hearing, Public Hearing, or legal instrument. Fees shall include, but are not limited to review by city staff, city contractors, agents or consultants, advertisement(s), recordings, mailings, and any additional costs related to the submitted application.

Affidavit to be executed by property owner. All right and entitlements run with the property.
