DEPARTMENT RECOMMENDATION:

Approval

BRIEF HISTORY:

In May 2023, the Public Works Department (PWD) requested an evaluation and the preparation of a sidewalk feasibility report for NW 82nd Avenue from NW 36th Street to NW 41st Street, obtaining two alternatives that addresses the inclusion of sidewalks in this sector of NW 82nd Avenue and improve traffic circulation by reassigning a lane to enhance vehicular flow. In April 2025, the PWD requested a proposal from Marlin Engineering Inc. to provide professional services for the design and permitting of the new sidewalk construction along the east side of NW 82nd Avenue from NW 36th Street to NW 41st Street. The sidewalk construction will incorporate modifications required by the existing conditions within the corridor. The project scope includes a 4-foot widening on the west side along the southbound lanes, just north of the intersection with NW 36th Street, as well as milling and resurfacing of the entire corridor, drainage improvements, and updates to signage and pavement markings. A new high emphasis crosswalk will also be installed on the east side of the intersection with NW 41st Street to enhance connectivity between the new sidewalk and the existing sidewalk on the north side of NW 82nd Avenue.
