The contractor employs the trolley drivers, dispatchers, one supervisor, and mechanics. The contractor is responsible for the management of the conduct and performance of these employees.

Pursuant to the Operations Agreement, the contractor and its employees are required to comply with the City's policies regarding conduct, including policies prohibiting discrimination. The City has provided the contractor with a copy of the City's "Notice of Rights Under Title VI of the Civil Rights Act of 1964", which is posted inside the trolleys which are operated by the contractor's employees, and with copies of the Title VI Complaint Procedure, and Title VI Complaint Form. The City has: (i) request that the contractor acknowledge its obligation and the obligation of its employees to comply with the City's policy prohibiting discrimination on the basis of race, color or national origin in connection with the trolley service; and (ii) request that the contractor instruct its employees (i.e., the trolley drivers, dispatchers and one supervisor) to refer any trolley passenger who makes a complaint about race, color or national origin discrimination to the City's "Notice of Rights Under Title VI of the Civil Rights Act of 1964" (published in English and Spanish), which is posted inside every City of Doral trolley.

VIII. Limited English Proficiency (LEP) Analysis

The City of Doral is located in Miami-Dade County, Florida. According to the 2011-2015 American Community Survey (conducted by the U.S. Census Bureau), the City's estimated total population was 51,382 residents, of which 40,780 people (estimated 79.4%) self-identified as Hispanic or Latino.

The principal languages among the City's residents are English and Spanish. According to the 2011-2015 American Community Survey, 9% of City residents reported speaking only English and 82.8% of the City residents are reported as being able to speak Spanish. The majority of the City's Spanish-speaking residents are bilingual with 67.2% reporting that they speak English "very well". Only 32.8% of the Spanish-speaking residents reported speaking English less than "very well". Of the remaining City residents, 5.5% reported speaking another Indo-European language (other than Spanish), 2.0% reported speaking an Asian or Pacific Island language, and 0.7% reported "other language." Copies of the survey results referenced in this section are attached in *Appendix F*.

The City's uses several methods to communicate with its residents (whether about the trolley service or other City issues). The City's communication tools are the City's website, Doral TV, local community newspapers, social media accounts (Facebook/Instagram/Twitter/YouTube), and the City of Doral Digest (quarterly newsletter). Residents may watch Doral TV from their home (with a Comcast cable subscription) or via the City's website.

The Trolley Administrative Office has employees who are bilingual and are fluent in Spanish. These employees are able to assist any Spanish-speaking residents who call or email the office with questions or who request information concerning the trolley service. For passengers on the trolleys, all of the trolley drivers currently provided by the contractor, Limousines of South Florida, Inc., speak Spanish and the City's "Notice of Rights Under Title VI of the Civil Rights Act of 1964" (printed in English and Spanish) is posted in each trolley.

To the extent that a Spanish-speaking resident is disabled and needs assistance in connection with the City's trolley service, that individual can request a reasonable modification in accordance with the City's Disability Non-Discrimination Policy. The policy is available on the City's website in English and Spanish and upon request from the City's ADA Coordinator.

IX. Public Participation Plan

The City of Doral seeks to engage the public in its planning and decision-making processes for the City's trolley service. Members of the public may make a presentation or statement about the trolley service during the "Public Hearing" portion of any City Council meeting regardless of whether the Commission is considering a trolley-related item during that meeting. The agenda for City Commission meetings are published three (3) business days in advance of the meeting on the City's website, and notices of resolutions or ordinances being considered by the City Commission are published in a newspaper of general circulation ten (10) days in advance of a meeting. The newspapers used by the City are the Daily Business Review and the Miami Herald/El Nuevo Herald (for budget and election notices). If any individual wishes to speak during the Public Hearing portion of a Commission meeting, but does not speak English fluently, he or she may contact the City Clerk's Office at least three (3) days in advance to request a translator.

Every year the City of Doral conducts opinion surveys on the Doral Trolley System. These surveys are conducted to gauge the needs, perception, and origin/designation of the system with its passengers. Through this survey, questions are asked about the quality of the service, its stops and the drivers. The study included the following public outreach efforts:

- About 400 on-board surveys of trolley passengers (conducted in English and Spanish).
- Surveys of all three routes.

The City has published a brochure about the trolley service that contains a map of the trolley route. The brochure is available to passengers on all trolleys. The brochure is currently available in English (see *Appendix G*).

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using multi-year data containing data from 2013. For more information, see: Language User Note.

While the 2011-2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval

or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
