Dear Mr. Leon:

On behalf of Municipal Parking Services, thank you for the opportunity to share information with you and your colleagues about the SafetyStick®. The solar SafetyStick is a unique, propriety product that was awarded a patent because of the novel way it detects and enforces illegal parking.

There are no other products on the market for enforcing illegal parking and on this basis the product has been sole sourced by municipalities around the country. Enclosed please find a copy of our patent and a sample resolution for a city council in NJ recognizing this.

We are excited about putting this innovation to work for the public safety and parking enforcement benefit of the City of Doral. Please contact me if I may be of further assistance.

Regards
