BRIEF HISTORY:

The Public Works Department (PWD) continuously looks for ways to improve services, efficiency and proactiveness, to provide the best possible level of service to the community. At the August 9, 2023, Council Meeting, the Mayor and Councilmembers expressed interest in providing an on-demand transit service to the City's senior citizen population. At the December 6, 2023, Council Meeting, the PWD presented to the Mayor and Councilmembers a high-level overview of vendors that currently provide on-demand transit services in South Florida. During the meeting it was noted that Freebee was the preferred vendor that offers the ability to create sub-zones designated for specific groups and age restrictions for the proposed Senior On-Demand Transit Service Pilot Program. During this meeting, the Mayor and City Councilmembers directed staff to provide cost scenarios and identify places of interest for the Senior On-Demand Transit program.

At the January 10, 2024, Council Meeting, the PWD presented possible cost scenarios and identified points of interest for door-to-door on-demand transit service. In collaboration with the City Manager's Office, the PWD initiated a survey to collect input from the City's senior community on the need for on-demand transit service. During this meeting, the Mayor and City Councilmembers requested staff to negotiate a contract agreement with Freebee for two (2) Tesla Model X vehicles to service the Senior citizen community for a 6-month Pilot Program at 50-hours per week. On the March 13, 2024, Council Meeting, the Mayor and City Councilmembers adopted Resolution No. 24-53 (approved 5-0) authorizing the City Manager

to waive the competitive bidding process and approve a contract with Freebee for a six (6) month pilot program to provide first-last mile door-to-door on-demand transit service to seniors for up to 50-hours a week. On April 15, 2024, the City launched the City's Senior On-Demand Transit Service. On September 11, 2024, Council Meeting, the Mayor and City Councilmembers adopted Resolution No. 24-220 (Approved 5-0) authorizing the City Manager to extend the pilot program until May 1, 2025. Due to the success of the Senior Pilot Program, the Public Works Department received request for new locations to service and the service map was adjusted accordingly.

On November 22, 2024, the City was notified of the awarded Public Transit Service Development Program Grant for the City's On-Demand Transit Service for the Fiscal Year 2026 to provide an additional vehicle to the city service and improve waiting times.

At the April 16, 2025, Council Meeting, the Mayor and Councilmembers adopted Resolution No. 25-110 (approved 5-0) approving extending the Service Agreement for the Senior service with Freebee to coincide with the FDOT grant period through June 30, 2026.

The PWD entered into the Public Transportation Grant Agreement with the FDOT on October 12, 2025, for a one-year period. After coordination with Freebee, the Freebee Senior Service was expanded from two (2) vehicles to three (3) vehicles on Tuesday, November 4, 2025.

At this time, the PWD is requesting to extend the current Senior Service Agreement with Freebee through November 30, 2026, under the same terms and conditions to coincide with the FDOT Grant period. This contract extension will allow the PWD to fulfill the grant and allow the PWD to work with the Procurement Division to work on research, development and procure the advertising of a new Request for Proposal (RFP) for the City's On-Demand Transit Service. Funding for this Freebee service is budgeted in Account No. 101.80005.500341 (Transportation – Contractual Services).
