

## What we Offer:

- An evening program
- Weekend socials
- Monthly Parties

## Why we do What we do:

- **Habilitation:** We give our pals opportunities to maintain and improve a variety of skill sets including independence, socialization, self-advocacy, life skills, motor skills, and more.
- **Community integration:** We want our pals to know how to navigate their community and be aware of community resources available to them. In addition, we want our community to not only have awareness of our pals, but be inclusive of them.
- **Recreation:** Our program is designed to help our pals learn skills to lead meaningful and productive lives, explore their potential, and develop a sense of community. We believe this is best achieved when they're engaged and having fun!
- **Community Service:** We want our pals to not only have a place in their community, but show off what a key element they are to it. We want to fuel them to lead meaningful lives, fulfill their purposes, and give back to their communities.

## Our Mission:

Pucho and Pals is a recreational program for people with intellectual disabilities dedicated to habilitation in a recreational approach through fellowship and community integration.

## Core Values:

**Intention** – We value our pals and strategically plan activities with productivity and their betterment in mind.

**Excellence** – We want to provide nothing but the best experiences for our pals.

**Passion** – We have heart for what we do and who we serve, we want that to be seen in all we do.

**Fellowship** – It's important for us to provide an experience that makes our pals feel a sense of belonging to their peers as well as in their community.

**Improvement** – Seeing our pals reach their highest potential is our priority and always outdoing ourselves in providing a better experience is our objective.
