WITNESSETH

WHEREAS, Section 403.0893, Florida Statutes (F.S.), authorizes the establishment of stormwater utilities to plan, construct, operate, and maintain stormwater management systems; and

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

WHEREAS, the UTILITY and the CITY recognize that there are operating costs, as well as benefits, associated with maintaining shared stormwater drainage systems; and

WHEREAS, the UTILITY and the CITY want to share these costs in proportion to the drainage area, the service provided, and the benefits received,

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

ARTICLE I PURPOSES

The UTILITY and the CITY enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;
- (2) to maintain and improve water quality and preserve and enhance the environmental quality of the receiving waters;

- (6) to promote intergovernmental cooperation in effectively and efficiently managing stormwater run-off;
- (7) to maintain and repair shared stormwater systems located within the limits of the drainage service areas, depicted on the map in Attachment "A-2", in accordance with the approved plans. These include maintaining canals, and any required maintenance of flow control structures and stormwater pump stations and their mechanical and electrical components; maintaining stormwater systems as determined by conditions of the system, prevailing environmental conditions, and the level of service established.
- (8) to provide a mechanism for the UTILITY and the CITY to share and allocate the cost of maintaining and repairing shared stormwater drainage systems as stated in (7), above.

The CITY shall be responsible for maintaining aesthetic conditions only on canals and other water bodies within the CITY’s boundary by providing for litter and minor debris removal as needed.

The CITY shall maintain and repair, at no cost to the UTILITY, canal bank areas where the CITY has performed or will perform canal bank stabilization projects.

The UTILITY shall maintain, repair, and enhance shared stormwater management systems located within the limits of the drainage service areas in accordance with Attachment “A” and Attachment “B”.

The CITY’s relative stormwater runoff contribution to the UTILITY’s shared drainage system and the UTILITY’s relative stormwater runoff contribution to the shared drainage system is depicted in Attachment “A”.

ARTICLE IV TERM OF THE AGREEMENT

The term of this Agreement shall be for a period of five (5) years, retroactively commencing on October 1, 2020 and ending on September 30, 2025, provided, however, either party may terminate this Agreement without cause prior to the expiration date upon one (1) year’s advance written notice to the other party of its decision to terminate this Agreement.

ARTICLE V CITY AND UTILITY RESPONSIBILITIES

A. Upon the request of either the CITY or the UTILITY, each shall share information in matters related to operations, maintenance, design and construction costs and cost allocation determinations associated with shared drainage systems.

B. The CITY and the UTILITY shall provide notice to each other, as provided, in this Agreement designating their respective Project Manager. Each shall promptly notify each other of any change in the Project Manager designation by written notice as specified in this Agreement.

C. Commencing with Fiscal Year 2020-2021, and after approval of the Agreement, the costs allocable to the CITY and the costs allocable to the UTILITY based on the relative stormwater runoff contribution to each other's shared portion of the stormwater drainage systems are included in this Agreement and presented as described in Attachment "B". Estimated total expenditures for the five (5) year term of this Agreement are also included and shall not be exceeded.

D. The tasks and levels of service set forth in Attachment "B" may be adjusted by the UTILITY due to prevailing environmental conditions, maintenance needs, or ownership, provided that the total annual estimated expenditures are not exceeded. The CITY may also request modifications to the tasks or level of services set forth in Attachment "B". Any such work requested by the CITY shall commence within reasonable time after the request has been made to the UTILITY. If the tasks and level of service must be adjusted in such a manner that the annual estimated expenditure will be exceeded in any given year, then approval by both parties' Project Managers must be obtained. However, the total five-year cost of the Agreement shall not be exceeded.

E. The UTILITY is representing that it has similar stormwater management agreements with other municipalities with similar tasks and levels of service. The UTILITY agrees to notify the CITY within a reasonable timeframe if the UTILITY makes changes to the tasks or levels of service related to the same canals set forth in Attachment "B". The CITY may contact the UTILITY to re-negotiate the terms of the Agreement with respect to services that may have been changed and have not yet been provided. If the CITY understands that other municipalities are being offered changes to the tasks and levels of service for the same canals set forth in Attachment "B", the CITY may request the same contract conditions. If the UTILITY refuses to re-negotiate or if after six months of continuous discussions for re-negotiation, an agreement between the CITY and the UTILITY cannot be reached, the CITY may immediately request termination of the Agreement. If terminated, the CITY agrees to pay all canal maintenance costs incurred by the UTILITY prior to the date of termination, which to date have not been invoiced for, and in accordance with Attachment "B" of this Agreement.

F. Payments by the CITY are to be made within 30 days after the bill presentation. In the event of a dispute on the billed amount, the CITY may notify the UTILITY of the nature of the dispute and the UTILITY shall make arrangements for the pertinent records to be made available for inspection by the CITY, as indicated under Article V (H) of this Agreement. Upon resolution of the dispute, payments by the CITY are to be made within 30 days. In the event of an overpayment by the CITY, the UTILITY shall reimburse the CITY within 30 days after verification of the overpayment by the UTILITY.

G. The CITY and the UTILITY shall maintain financial records pertaining to this Agreement for 5 years after the expiration of this Agreement, and shall make them available for inspection and copying at the place where the records are maintained within a reasonable time after receiving a records request.

H. The CITY and the UTILITY shall each be responsible for procuring independently all necessary permits in the performance of their respective work under this Agreement.

I. The CITY and the UTILITY shall each comply with all applicable regulations, ordinances and laws in effect in the performance of this Agreement.

J. If requested, the UTILITY will provide a tentative yearly maintenance schedule at the beginning of each fiscal year. As an update to the yearly maintenance schedule, the UTILITY will coordinate (via e-mail or telephone) with the CITY within 48 hours prior to commencing work in the CITY. The UTILITY contact for maintenance activities will be the Division Chief of the Miami-Dade County Department of Transportation and Public Works (DPTW) - Road, Bridge, and Canal Maintenance Division.
